

October 4, 2025

Good morning Turf Club Members,

Yesterday was the start of the Fall 2025 Keeneland meet, and thankfully the powerful **Trackpro Value Rating (TPV)** software got off to a great start at this track listing four winners on TOP which generated a flat bet profit of **+\$8.08** on the day! And not only that, the **TPV** algorithm handicapped a flat bet profit at four of the five tracks yesterday! From the forty-five races handicapped, the **TPV** selected sixteen winners

on TOP (**35.55%**) which generated a flat bet profit of **+\$40.00** on the day! In order to make flat bet profits of this magnitude, you obviously have to nail some nice longshots, and that is exactly what the **Trackpro** algorithm did for subscriber's yesterday. For example, at BAQ in R7, the #4 FILLY FREEDOM paid **\$10.38** to win. At GP in R4, the #1 TREE C'S KAI won and paid **\$12.00**. Then in R8 at GP, the #3 FLOWKO picked on TOP stepped down the stretch to win, and paid a whopping **\$32.40**! But there were also some nice longshots

listed second in the reports also. For example, at BAQ in R3, the **TPV** listed the #2 DETTORI second in the handicapped report shown below, and this horse left the gate at **16-1** and paid a whopping **\$35.66** to win! The heavy favorite and BEST BET #4 TIME TO WIN ran second at miserable odds of **41 cents** to the dollar, proving once again why **Trackpro** never wagers to win on any horse below **9/5** odds! Simply moving to the second selection when the top horse is below **9/5** odds very often snags some nice payoffs. The listed \$2.00 Exacta with the favorite running second paid a hefty **\$91.76**!

The Double Overlay in the report above which was the #3 FIDDLING FELIX unfortunately finished sixth at massive 23-1 odds. The winner #2 DETTORI (\$35.66) shown below in the past performances was listed at **8-1** on the morning line, but left the gate at twice the morning line odds, so clearly this horse was completely overlooked by the betting public.

But despite what the public thought of the horse, the **TPV** algorithm thought this three year old colt sired by MUNNINGS had an excellent chance to win, and it was “spot on”. The powerful **Trackpro Handicapping Tools** marked the #2 DETTORI (\$35.66) as having a **RECENT WORKOUT (k)** which took place only two days ago! And not only that, the connections were showing excellent win percentages as indicated by the **HIGH J/T WIN % (j)** symbol in the report. The listed \$1.00 PICK 3 (4 x 1 x 2) paid a whopping **\$244.40**. And the listed \$2.00 Daily Double (1 x 2) paid a solid **\$119.84** for subscriber's.

\$1 Pick Three (1-7-2) Paid \$244.40 ; Pick Three Pool \$58,242 .
\$1 Daily Double (7-2) Paid \$59.92 ; Daily Double Pool \$40,955 .

At Santa Anita yesterday, the **TPV** only listed two winners on TOP, but still, the **TPV** did handicap the highest win payoff on the day at this track which was the #3 ZOMBO BOMBO (\$27.20) in R2 shown below:

Note that the #3 ZOMBO BOMBO (\$27.20) was marked with a total of **three Handicapping Tools** shown above which apparently the betting public completely ignored. Hopefully, **Trackpro** subscriber's noticed the huge overlay odds at **12-1** at post time, which was double the morning line, and caught this horse to win. Any horse listed in the report is fully capable of winning, and

horses marked with three or more handicapping tools should always be given a close look for sure! And by the way, MUNNINGS sired three winners yesterday which are shown below. And all three horses paid into the double digits, and were listed in the **Trackpro** reports!

There are not many professional handicapping services on the internet these days that specifically pay close attention to pedigree statistics if I had to guess, but the **TPV** algorithm sure does! And make no mistake, pedigree is an extremely important handicapping factor to consider in every race, not just maiden races. That is my opinion anyways, others may disagree.

THE POWER OF THE DAILY DOUBLE WAGER

Many racing fans these days love to invest in the PICK 3, PICK 4, PICK 5 and PICK 6 wagers, but they often overlook the lucrative Daily Double wager if I had to guess. But not only is the Daily Double wager much easier to hit, it is also less expensive to purchase because you only need to select two consecutive winners in two races back to back. For example, let's take a look at a few two dollar Daily Double payoffs using just the **TOP**

TWO SELECTIONS in the **Trackpro** reports yesterday. Using two horses in a \$2 Daily Double in each leg would cost \$8.00 calculated as follows: ($2 \times 2 = 4 \times 2 = \8.00).

10/03/25	BAQ	R2	#7	BOLT HOUSE	\$7.92	TOP
10/03/25	BAQ	R3	#2	DETTORI	\$35.66	2ND
				DAILY DOUBLE PAID	\$119.84	

10/03/25	BAQ	R3	#2	DETTORI	\$35.66	2ND
10/03/25	BAQ	R4	#8	FILLY CRYSTAL	\$3.94	TOP
				DAILY DOUBLE PAID	\$127.22	

10/03/25	GP	R8	#3	FLOWKO	\$32.40	TOP
10/03/25	GP	R9	#3	CHOOSE JOY	\$14.60	2ND
				DAILY DOUBLE PAID	\$346.80	

There were more double payoffs listed in the reports, but the three examples shown above were the really big balloons! So clearly, the **Trackpro** reports contain tons of wagering value on most days, and it goes without saying that subscriber's can do very well by just sticking to the TOP TWO SELECTIONS when the odds are high on the top board.
