In today's newsletter, **Trackpro** wants to review some helpful tips for subscriber's who purchase the daily professional handicapped reports. Most racing fans know full well that in order to have a reasonable chance of making a profit in this game, you need to bet on horses that consistently offer wagering value, not just the horse with the best chance of winning. And ideally, sometimes you can find both factors on the tote board at the same

time! And it is these horses that offer racing fans the opportunity to make a nice score. For example, let's go over the first three races and selections at Keeneland yesterday, to see if we can pinpoint what makes sense, and does not make sense from a wagering perspective.

KEENELAND – 10/10/2025 R1 LOWEST LISTED MORNING LINE PICK 3

1) IDENTIFY THE LOWEST LISTED MORNING LINE HORSE

The first thing to do is to draw a rectangle around the horse with the LOWEST LISTED MORNING LINE (LLML) as shown above in the selections for R1 at Keeneland. For racing fans looking to play the horizontal wagers such as the Daily Double, PICK 3, PICK 4, and PICK 5, this is the horse to leave OFF your wagering ticket. Remember, the LLML only pertains to the horizontal wagers. The object is to cash horizontal wagers using the three remaining selections in each leg starting with the Daily Double, and then proceeding to the PICK 3, PICK 4, and PICK 5 if you wish to play these additional wagers. But very often, subscriber's can do well with just the \$2 Daily Double and the 50 cent PICK 3. The cost of each **LLML** horizontal wager using three horses is set forth below:

AMOUNT	WAGER	CALCULATION	COST
\$2.00	DOUBLE	$(3 \times 3 = 9) \times 2$	\$18.00
50 CENT	PICK 3	$(3 \times 3 \times 3 = 27) / 2$	\$13.50
50 CENT	PICK 4	$(3 \times 3 \times 3 \times 3 = 81) / 2$	\$40.50
50 CENT	PICK 5	$(3 \times 3 \times 3 \times 3 \times 3 = 243) / 2$	\$121.50
20 CENT	PICK 6	$(3 \times 3 \times 3 \times 3 \times 3 \times 3 = 729) / 5$	\$145.80

In the selections for R1 shown above, note that the #1 BUSK (\$4.08) was made the post time favorite, and won the race, but was NOT eliminated using the **Trackpro** LLMML wagering method! The LLMML has the unique advantage of adding wagering value to the horizontal tickets, while at the same time not necessarily leaving out the post time favorite. It all depends of course on which horse the betting public decides to make the race favorite. So on to R2 shown below:

2) IDENTIFY HORSES WITH THREE OR MORE HANDICAPPING TOOLS

In the selections for R2 shown above, the only horse marked with three or more Trackpro Handicapping Tools was the #3 FRONT RUNNIN (\$41.20) listed fourth in the report. This selection was marked with a total of five tools!

Pedigree Power Play (–)
 Notable Pedigree (=)
 Notable Angle (a)
 Improving (I)
 Early Speed (e)

What is absolutely amazing about the winner was that the betting public thought

the #3 FRONT RUNNIN (\$41.20) had little chance to win, despite the powerful **Trackpro Value Rating (TPV)** pointing this horse out for subscriber's marking it with the five Handicapping Tools highlighted above. The betting public generally steers far clear of low win percentage connections, but nothing can hide the fact that trainer Carl Deville (6.90%) is successful dropping horses for the first time into claiming races: **1st Time Cimg (7) W% - 28.57**. And let's not forget that the #3 FRONT RUNNIN (\$41.20) was sired by WAR FRONT, hence the **Pedigree Power Play (--)** and **Notable Pedigree (=)** tools were showing with the **10-1** morning line! The **LLML Daily Double** (\$18.00 cost) paid a whopping **\$102.22!**

\$1 Daily Double (1-3) Paid \$51.11 ; Daily Double Pool \$67,704.

KEENELAND – 10/10/2025 R3 – FOUR HANDICAPPING TOOLS - \$12.26

3) IDENTIFY HORSES WITH THE LOWEST (CLASS AND VALUE) TOTAL

In the selections for R3 shown above, the #3 LADY VALOR (\$12.26) had the lowest combined **Class (C)** and **Bet Value (V)** rating from the four listed selections. This horse also had the top **Pace (P)** rating, and was also marked as the **Best Bet (*)** on the entire card having earned the highest **TPV** rating. In addition, the winner was also marked with a total of four Handicapping Tools! A standout selection for sure given the tote board odds at **5-1** at post time. The **LLML Daily Double** (\$18.00 cost) paid **\$298.14**, and the **LLML PICK 3** (\$13.50 cost) paid a solid **\$218.41!**

50 CENT Pick Three (1-3-3) Paid \$218.41 ; Pick Three Pool \$80,855 .
 \$1 Daily Double (3-3) Paid \$149.07 ; Daily Double Pool \$33,486 .

In general, horses with tote board odds above the **Class Value Total (CVT)** offer subscriber's excellent wagering value, and make great win and place bets! The **CVT** on the winner #3 LADY VALOR (\$12.26) was only three, but the tote board odds were at **5-1** at post time! In R2 at Keeneland, the #3 FRONT RUNNIN (\$41.20) had a **CVT** of thirteen, but left the gate at **19-1** odds! Remember, all of the above are just suggestions on how to take advantage of the **Trackpro** professionally handicapped reports when wagering. Nothing is guaranteed, and nothing will work all of the time, so keep that in mind. **Trackpro** will be providing more wagering ideas in future newsletters so stay tuned.
