

EXPERT HORSE RACING HANDICAPPING!

December 25, 2025

Good morning Turf Club Members,

MERRY CHRISTMAS TO ALL!

Trackpro and **Mrs. Trackpro** want to wish everyone in the **Turf Club** a very Merry Christmas, and all the best in the coming New Year! And I want to especially thank all the **Trackpro** subscriber's who purchased the handicapped reports throughout the year. It is hard to believe that another year of outstanding thoroughbred handicapping and horse racing is

almost over! And speaking of outstanding handicapping, Santa Claus came early for **Trackpro** subscribers yesterday at Gulfstream Park! The powerful **Trackpro Value Rating (TPV)** algorithm handicapped the early **50 cent PICK 5 (1 x 1 x 1 x 3 x 1)** in R5 that paid a whopping **\$2,561.10** with **FOUR** of the PICK 5 winners handicapped right on **TOP!** This huge **PICK 5** was listed in the

TOP THREE SELECTIONS! And not only that, the \$1.00 **COLD PICK 3 (1 x 1 x 1)** in R3 returned a stocking stuffing **\$437.80** for subscriber's!

GULFSTREAM PARK

And the winner's kept rolling home all afternoon at Gulfstream Park yesterday. The **TPV** algorithm listed every single winner on the entire card in the **Trackpro** report, including the late **50 cent** PICK 4 in R9 that paid **\$459.25**. The late **50 cent** PICK 5 that paid **\$724.80**, and the late **20 cent** PICK 6 (**3 x 1 x 2 x 2 x 4 x 3**) that paid a massive **\$4,646.50** for subscriber's! In fact, the handicapping was so spot on yesterday, that only one winner in the entire report was listed fourth, so that kept the cost of the rolling horizontal wagers quite low. The cost to cash a one dollar PICK 3 using the **Trackpro** TOP THREE SELECTIONS in each leg is **\$27.00**. The cost to cash a **50 cent** PICK 4 ticket is **\$40.50**. And the cost to cash the **50 cent** PICK 5 using the **Trackpro** TOP THREE SELECTIONS is **\$121.50**. The flat bet profit on the **TOP FOUR WINNERS** was an impressive **+\$35.60** for each two dollars wagered! So does COMPREHENSIVE HANDICAPPING lead to CONSISTENT HANDICAPPING? It sure does! The **Trackpro** results shown below are not luck, they are the direct outcome of a very sophisticated and unique algorithm developed over a period of years, that works extremely well on most days! This is why it is so important for subscriber's to purchase the handicapping for an entire meet. One good day, like the professional handicapping yesterday at Gulfstream Park, can

return tremendous profits that can pay for the reports for an entire meet many times over! Racing fans know full well that the win payoffs on some racing days are quite low, and on other days, the winners are sporadic with a few so called "hopeless longshots" somehow managing to win that lead to poor results. But over the long run, and throughout the course of an entire meet, there are plenty of longshots that figure to win, and do win! And the handicapping yesterday at GP provides a perfect example. The selections for the early PICK 5 are shown below, and the full handicapped report can be viewed on the [Trackpro.us.com](https://www.Trackpro.us.com) website.

JIT Meet (14 .07 -\$0.20) JIT L365: (75 .25 -\$0.32)																						

The winner in R1 was the #11 BRAT PACK (\$7.60) listed on TOP. This two year old filly sired by GUN RUNNER earned the top **Class (C)** and **Bet Value (V)** ratings in the selections shown above. Despite the second place finish last race which was just **32** days ago at Laurel Park, and the positive chart comment which stated: "*Fractious gate;rallied*", this filly was listed sixth in the Brisnet

Prime Rating algorithm shown above in the past performances. And what **Trackpro** finds particularly interesting is the following comment made by a competing handicapping service over on Equibase.com: **BRAT PACK** - *Don't think this less than sharp equine will make an impact in today's race. That last speed rating was mediocre when compared with today's Equibase class figure*". First of all, any thoroughbred making the first start of its career, that breaks seventh from the gate, and then finishes second, closing ground strongly in the stretch is displaying sharply improving form. And not only that, the majority of horses in this race either had not raced at all, or had raced over forty days ago! And with respect to the class of the winner, sire GUN RUNNER has tons of class does he not? He sure does! Standing at Three Chimneys Farm, his stud fee is a hefty **\$250K**, and this sire is ranked third in North America right now by progeny earnings! And the **76** speed rating earned by the winner last race was the second best in the field. And considering the slow fractious start, it was excellent overall, considering the race favorite earned an **85**, had not raced in **85** days, and left the gate at even (**1-1**) money! *The Trackpro Value Rating (TPV) algorithm incorporates pedigree into its handicapping, and this one factor alone is responsible for plenty of Trackpro listed winners.* Believe it or not, pedigree is rarely mentioned in professional race commentary these days, or incorporated into computer algorithms either. But the **TPV** algorithm performs extensive pedigree analysis on its own using the outstanding Brisnet Pedigree Database. Here is the description of how the Brisnet data is calculated:

"Based on an analysis of hundreds of thousands of starts in North America, each start of all offspring from the sire, dam, and damsire are evaluated and measured for their individual racing aptitudes and preferences. Unlike other pedigree ratings, which merely reflect win percentages or earnings, the BRIS Pedigree Ratings utilize a vast array of performance rating tools (Speed Ratings, Class Ratings, Power Ratings, etc.) to accurately measure the actual improvement or decline each offspring displayed at different distances and surfaces. The net result of this exhaustive compilation is the most accurate, comprehensive, and predictive pedigree ratings available to handicappers."

The #11 **BRAT PACK (\$7.60)** was sharp enough to win, earned the **TOP Trackpro Class (C)** rating, and the horse did win to kick off the early horizontal wagers right on **TOP** for **Trackpro** subscriber's!

In the selections for R2 shown above, the **TPV** listed the winner #8 ARAUCANO (**\$38.20**) right on **TOP** with a morning line set at **15-1** by the track racing analyst. The betting public thought this three year old colt sired by MCKINZIE had absolutely no chance to win, and proceeded to float the post time odds up an additional *three points* to a massive **18-1** at post time for subscriber's. And once again, this horse earned the TOP Trackpro **Class (C)** rating! And not only that, the **TPV** rating itself

towered a full **37** points over the second selection. Did pedigree analysis play a part in pinpointing this winner for subscriber's? It sure did, and even marked the horse with the **Notable Pedigree (=)** symbol. The #8 ARAUCANO (**\$38.20**) also had a **Notable Chart Comment (c)**, and a **High Jockey / Trainer ROI (%)** at **+\$5.90** for each two dollars wagered showing in the report. What was not to like at **18-1** odds? In the past performances shown above, sharp handicapper's in the **Turf Club** might have noticed the second place finish losing by just three quarters of a length at Saratoga in a high priced Maiden Claiming race four back. And two races back, trainer Jeff Engler (**5.33%**) claimed this well bred colt for just **\$12.5K**. Not bad considering the winner's share of the purse yesterday was **\$13.8K**, and the stud fee for MCKINZIE for 2026 is **\$75K**. A very nice claim indeed. And an outstanding **TOP PICK** by the powerful **TPV** algorithm that sent the horizontal payoffs through the roof! The \$2.00 **COLD DAILY DOUBLE (1 x 1)** paid an incredible **\$360.00!** The listed two dollar Exacta "key" returned **\$164.60**, and the listed two dollar triple "key" paid a rock solid **\$546.60!**

The listed **\$1.00 PICK 3 (1 x 1 x 3)** in R4 shown above paid a hefty **\$437.80!** The cost to cash this wager using the **TOP THREE Trackpro** selections in each leg was **\$27.00**. (3 x 3 x 3 = **\$27.00**). And notice the THREE Handicapping Tools marked on the winner shown above in the selections. But do not think for a minute that this selection was an easy pick. Because plenty of competing services missed this horse. One service wrote this: **"DIVINE BLUE- Just cannot**

invest in this horse. Didn't show me anything positive last out or on Nov 7th.” Well everyone is entitled to their own thoughts and opinions in this game, but clearly, the winner #2 DIVINE BLUE (\$11.80) being sired by CONSTITUTION was showing sharp **Early Speed (e)**, and excellent **Pace (P)** last race. And in the race two back on November 7th, this two year old filly closed strongly passing four horses in the stretch. The chart commentator wrote this: “Rank;swung 6w;no kick” Notice that the horse was racing six wide and closed hard. The **TPV** algorithm found plenty to like listing the winner third in the report to keep the huge rolling horizontal wagers alive for subscriber's!
